Initial UNITE Recommendations

- Publicly commit to identifying and correcting any NIH policies or practices that may have helped to perpetuate structural racism

Acknowledgement

“To those individuals in the biomedical research enterprise who have endured disadvantages due to structural racism, I am truly sorry. NIH is committed to instituting new ways to support diversity, equity, and inclusion, and identifying and dismantling any policies and practices at our own agency that may harm our workforce and our science.”

— Francis S. Collins, M.D., Ph.D., NIH Director
